OXARO

AWS PRACTICE / CANADIAN PUBLIC SECTOR

Secure cloud. Mission-ready innovation.

AI Business Strategy

Choose where AI creates business value.

YOUR PROGRAM. YOUR NEXT CAPABILITY.

Leaders have competing AI ideas but no shared priorities, credible business case or adoption plan.

What we deliver

01 / DELIVER

Find valuable use cases

Assess priorities, workflows, data, skills and governance; rank promising AI opportunities.

02 / DELIVER

Build the business strategy

Develop value and cost assumptions, an operating model and a sequenced adoption roadmap.

03 / DELIVER

Keep the strategy current

Use ongoing advisory to review progress, refresh priorities and support investment decisions.

What you receive

Prioritized use cases

Value, feasibility and risk assumptions.

An informed business case

Readiness, costs and governance needs.

An adoption roadmap

Owners, milestones and success measures.

BUILT FOR HIGH-TRUST ENVIRONMENTS

Work with business, technology and governance owners to make assumptions explicit and agree a roadmap you can use.

Advisory deliverables only. Implementation and ongoing operations are separately scoped through FDE or specialist services.

Let's build your next mission capability.

aws-solutions@oxaro.com

Private offer / Scope and fees agreed in your quote.
AWS consumption and third-party licences are separate.

Business priorities first. A practical path to AI adoption.

AI BUSINESS STRATEGY / HOW IT WORKS

AI STRATEGY AND ADVISORY

Choose where AI can create business value

BUSINESS PRIORITIES
Outcomes, workflows and current costs

READINESS
Data, technology and workforce skills

GOVERNANCE
Risk owners, policies and decision rights

↓ Evaluate opportunities against business needs

A BUSINESS CASE, NOT A TECHNOLOGY DEMO

Prioritize
Value, feasibility and risk assumptions

Plan
Costs, adoption and operating model

Measure
Success measures and review cadence

AN ACTIONABLE ADOPTION ROADMAP

Use cases / investment assumptions / governance needs / owners and milestones

OXARO
Assess needs, compare options and document the agreed strategy and roadmap.

CUSTOMER
Set priorities, validate assumptions and retain investment and adoption decisions.

From agreed scope to accountable delivery

01
Clarify priorities
Agree the business outcomes.

02
Assess opportunities
Rank use cases and readiness.

03
Develop the strategy
Set value, cost and governance assumptions.

04
Review progress
Refresh priorities through advisory.

Illustrative and engagement-specific. Interfaces, access, scope, acceptance and responsibilities are agreed for each engagement. Customer approvals and security authorization remain with the customer.

Let's build your next mission capability.
